

PART I

CASE STUDIES

REINKE'S EDEMA, 3

CASE STUDY 1-1: Postoperative Reinke's Edema, 4

VOCAL CORD DYSFUNCTION, 7

CASE STUDY 2-1: Vocal Cord Dysfunction, 8

CASE STUDY 2-2: Vocal Cord Dysfunction, 11

CASE STUDY 2-3: Irritable Larynx Syndrome, 13

HABIT COUGH, 15

CASE STUDY 3-1: Habit Cough, 16

MUSCLE TENSION DYSPHONIA, 18

CASE STUDY 4-1: Muscle Tension Dysphonia, 20

CASE STUDY 4-2: Muscle Tension Dysphonia Secondary
to Laryngopharyngeal Reflux (LPR), 24

CASE STUDY 4-3: Muscle Tension Dysphonia of Psychological Origin, 27

CASE STUDY 4-4: Muscle Tension Dysphonia of Psychological Origin, 30

PUBERPHONIA, 33

CASE STUDY 5-1: Puberphonia Voice Disorder, 34

VOCAL NODULES AND CYSTS, 36

CASE STUDY 6-1: Vocal Nodules—Adult, 37

CASE STUDY 6-2: Vocal Nodules—Child, 39

CASE STUDY 6-3: Vocal Fold Cyst Misdiagnosed as Vocal Nodules, 42

SPASMODIC DYSPHONIA, 45

CASE STUDY 7-1: Adductor Spasmodic Dysphonia with Tremor, 46

CASE STUDY 7-2: Adductor Spasmodic Dysphonia, 49

CASE STUDY 7-3: Mixed Abductor/Adductor Spasmodic Dysphonia, 52

VOCAL FOLD PARALYSIS, 55

CASE STUDY 8-1: Unilateral Recurrent Laryngeal Nerve Paralysis
Following Thyroplasty, 57

CASE STUDY 8-2: Vocal Cord Paralysis Accompanying CVA, 61

CASE STUDY 8-3: Unilateral Recurrent Laryngeal Nerve Paralysis, 64

TRANSGENDER VOICE: MALE TO FEMALE, 67

CASE STUDY 9-1: Gender Identity Disorder:
(Male to Female) Voice, 68

POSTLARYNGECTOMY VOICE, 71

CASE STUDY 10-1: Esophageal Voice, 73

CASE STUDY 10-2: Tracheoesophageal Voice, 76

RESONANCE DISORDERS: ORAL-NASAL BALANCE, 79

CASE STUDY 11-1: Hyponasal Resonance, 81

CASE STUDY 11-2: Hypernasal Resonance, 83

PART II

EVALUATION

CLIENT INTERVIEW, 85

EVALUATION TASKS, 86

ASHA 2004 PREFERRED PRACTICE PATTERNS FOR THE
PROFESSION OF SPEECH-LANGUAGE PATHOLOGY, 89

BASIC VOICE EVALUATION EQUIPMENT AND MATERIALS, 92

TASK MODIFICATIONS AND PROPS FOR CHILDREN, 93

ANTERIOR VIEW OF THE LARYNGEAL CARTILAGES, 94

ENDOSCOPIC VIEW OF A NORMAL LARYNX, 94

SAMPLE OTOLARYNGOLOGY REPORT, 95

ADULT CASE HISTORY, 96

CHILD CASE HISTORY, 98

VOICE EVALUATION FORM, 100

STROBOSCOPY EVALUATION RATING FORM (SERF), 106

UNIVERSITY OF WISCONSIN VIDEOSTROBOSCOPIC
RATINGS, 108

CURRENT VOICE RESEARCH—ASHA DIVISION 3—
CAPE-V, 109

VOICE RATING SCALE, 110

RAINBOW PASSAGE, 111

TOWNE-HEUER PASSAGE, 112

MUSIC NOTES TO CORRESPONDING FREQUENCIES, 113

- A COMPILATION OF VOICE NORMS FOR PHONATION DURATION, S/Z RATIO, SPEECH RATE, LOUDNESS, PITCH, 114
- LARYNGEAL AREAS MOST SENSITIVE TO MUSCLE TENSION, 116
- NECK AND EXTRINSIC LARYNGEAL MUSCLES SENSITIVE TO TENSION, 117
- VOICE HANDICAP INDEX (VHI), 118
- REFLUX SYMPTOM INDEX (RSI), 120
- THE STRUCTURES AND VALVES OF THE SPEECH MECHANISM, 121
- VAGUS NERVE DIAGRAM, 122
- VOCAL CORD PARALYSIS— LESION LOCATION AND EFFECTS, 123
- SPEECH AND VOICE TASKS FOR ASSESSING SPASMODIC DYSPHONIA, 124
- SAMPLE OTOLARYNGOLOGY REPORT FOR SPASMODIC DYSPHONIA, 125
- SPEECH AND VOICE TASKS FOR ASSESSING RESONANCE, 126
- MALE-TO-FEMALE TRANSGENDER COMMUNICATION ASSESSMENT FORM, 127
- SAMPLE PULMONOLOGY REPORT FOR VOCAL CORD DYSFUNCTION, 128
- VOCAL CORD DYSFUNCTION PATIENT INTERVIEW, 129
- SAMPLE PULMONOLOGY REPORT FOR HABIT COUGH, 133
- HABIT COUGH PATIENT INTERVIEW, 134
- SIGNS AND SYMPTOMS OF DEPRESSION, 137
- TYPES AND SYMPTOMS OF ANXIETY DISORDERS, 138

PART III

TREATMENT

- ASHA 2004 PREFERRED PRACTICE PATTERNS FOR THE PROFESSION OF SPEECH-LANGUAGE PATHOLOGY, 141
- GUIDELINES FOR VOICE THERAPY, 144

A GUIDE FOR FORMULATING GOALS FOR VOICE
AND LARYNGEAL TREATMENT, 145

A SAMPLE HIERARCHY FOR MASK FOCUS THERAPY
TECHNIQUE, 147

METHODS FOR EVALUATING CLIENTS' PERFORMANCE, 150

VOICE THERAPY PROGRESS NOTE, 151

ESSENTIAL COMPONENTS FOR A WELL-BALANCED VOICE, 153

LARYNGEAL PALPATION AND MASSAGE, 154

TREATMENT FOR VOCAL CORD DYSFUNCTION, 155

TREATMENT FOR HABIT COUGH, 156

COUGH MANAGEMENT CHART, 157

VOICE CARE TIPS, 158

LARYNGOPHARYNGEAL REFLUX INFORMATION, 159

SOURCES OF CAFFEINE, 160

COUNSELING TIPS FOR THE SLP, 161

PART IV

LEARNING OPPORTUNITIES

OVERVIEW, 163

RESPIRATION LAB, 165

VOICE ANALYSIS LAB, 167

RESONANCE LAB, 169

THE ORAL CAVITY AND NASOPHARYNX, 170

ALARYNGEAL SPEECH LAB, 171

BEFORE AND AFTER LARYNGECTOMY, 172

PART V

“UNSOLVED” CASE STUDIES

UNSOLVED CASE STUDY: Guided Learning Example: Muscle Tension
Dysphonia, 175

UNSOLVED CASE STUDIES: PEDIATRIC, 179

UNSOLVED CASE STUDY 1: Recurrent Respiratory Papillomatosis, 179

UNSOLVED CASE STUDY 2: Vocal Nodules, 182

UNSOLVED CASE STUDY 3: Status Following Pharyngeal Flap Repair for Cleft Palate, 185

UNSOLVED CASE STUDY 4: Muscle Tension Aphonia of Psychological Etiology, 187

UNSOLVED CASE STUDY 5: Juvenile Resonance Disorder, 189

UNSOLVED CASE STUDIES: ADULT, 192

UNSOLVED CASE STUDY 6: Muscle Tension Dysphonia, 192

UNSOLVED CASE STUDY 7: Vocal Polyp, 195

UNSOLVED CASE STUDY 8: Vocal Fold Paralysis, 198

UNSOLVED CASE STUDY 9: Vocal Nodules PostSurgery, 201

UNSOLVED CASE STUDY 10: Parkinson Disease, 204

UNSOLVED CASE STUDY SCORING RUBRIC, 207

REFERENCES, 209

ADDITIONAL READINGS, 212

ASHA CODE OF ETHICS, 214

GLOSSARY, 217

LIST OF ILLUSTRATIONS

FIGURE 2-1: Anterior View of the Laryngeal Cartilages, 94

FIGURE 2-2: Endoscopic View of a Normal Larynx, 94

FIGURE 2-3: Music Notes to Corresponding Frequencies, 113

FIGURE 2-4: Laryngeal Areas Most Sensitive to Muscle Tension, 116

FIGURE 2-5: Neck and Extrinsic Laryngeal Muscles Sensitive to Tension, 117

FIGURE 2-6: The Structures and Valves of the Speech Mechanism, 121

FIGURE 2-7: Vagus Nerve Diagram, 122

FIGURE 3-1: Essential Components for a Well-Balanced Voice, 153

FIGURE 3-2: Laryngeal Palpation and Massage, 154

FIGURE 4-1: The Oral Cavity and Nasopharynx, 170

FIGURE 4-2: Before and After Laryngectomy, 172

ANSWERS TO LABS AND UNSOLVED CASE STUDIES (See CD for Answers)

CD-ROM CONTENTS

EVALUATION MATERIALS

Adult Case History
Child Case History
Voice Evaluation
Stroboscopy Evaluation Rating Form (SERF)
University of Wisconsin Videostroboscopic Ratings
Current Voice Research—ASHA Division 3—CAPE-V
Voice Rating Scale
Rainbow Passage
Towne-Heuer Passage
Voice Handicap Index
Reflux Symptom Index
Speech and Voice Tasks for Assessing Spasmodic Dysphonia
Speech and Voice Tasks for Assessing Resonance
Male-to-Female Transgender Communication Assessment Form
Vocal Cord Dysfunction Patient Interview
Habit Cough Patient Interview

THERAPY MATERIALS

Voice Therapy Progress Note
Treatment for Vocal Cord Dysfunction
Treatment for Habit Cough
Cough Management Chart
Voice Care Tips
Laryngopharyngeal Reflux Information
Sources of Caffeine

LEARNING OPPORTUNITIES (WITH ANSWERS)

Respiration Lab
Voice Analysis Lab
Resonance Lab
Alaryngeal Speech Lab

UNSOLVED CASE STUDIES (WITH ANSWERS)

Unsolved Pediatric Case Studies
Unsolved Adult Case Studies
Unsolved Case Study Scoring Rubric
