

Table of Contents

	Page
Section 1 -- Background	1
Perspectives on Progress in IPM <i>George G. Kennedy</i>	2
Factors Affecting the Adoption of New Technologies <i>Ann Sorensen and Patrick A. Stewart</i>	12
Shifting Agricultural and Ecological Context for IPM <i>Paul S. Zorner</i>	32
Section 2 -- New Diagnostic Techniques for IPM	42
General Overview of Diagnostic Technologies <i>C. L. Sutula</i>	44
Use of DNA Technologies in Diagnostics <i>R. Henkens, C. Bonaventura, V. Kazantseva, M. Moreno, J. O'Daly, R. Sundseth, S. Wegner, M. Wojciechowski</i>	52
Detection of Resistant Insects and IPM <i>R. M. Roe, W. D. Bailey, F. Gould, C. E. Sorenson, G. G. Kennedy, J. S. Bacheler, R. L. Rose, E. Hodgson, C. L. Sutula</i>	67
Pathogen Detection and Pesticide Use <i>Sandy J. Stewart</i>	85
Section 3 -- Genetic Engineering for IPM	94
General Concepts, Status, and Potential of Transgenic Plants in IPM <i>Stewart Sherrick and Graham Head</i>	96
Genetic Engineering in IPM: A Case History for Virus Disease Resistance <i>Roger N. Beachy and Mohammed Bendahmane</i>	101
Genetic Engineering in IPM: Bt Cotton <i>Gary P. Fitt and L. J. Wilson</i>	108
Genetic Engineering in IPM: Herbicide Tolerance <i>F. Dan Hess, Sr. and Stephen O. Duke</i>	126

Implications of Pest-Resistant/Herbicide-Tolerant Plants for IPM	141
<i>David C. Bridges</i>	
Regulation of Plant-Pesticides: Current Status	154
<i>Janet L. Andersen and Elizabeth Milewski</i>	
Genetically Engineered Pathogens of Insects for IPM: Concepts and Status	163
<i>Brian A. Federici</i>	
Success and Failure of Bt Products: Colorado Potato Beetle --A Case Study	177
<i>David N. Ferro</i>	
Reassessing Autocidal Pest Control	190
<i>Fred Gould and Paul Schliekelman</i>	
Section 4 -- Biological Control	208
Current Status of Biological Control of Insects	210
<i>Marjorie A. Hoy</i>	
Habitat Management to Enhance Biological Control in IPM	226
<i>D. A. Landis, F. D. Menalled, J. C. Lee, D. M. Carmona, A. Perez-Valdez</i>	
Current Status of Biological Control of Plant Disease	240
<i>Joyce E. Loper and Virginia O. Stockwell</i>	
Technologies for Strain Improvement for Biological Control of Plant Pathogens	257
<i>J. M. Ligon, S. T. Lam, T. D. Gaffney, D. S. Hill, P. E. Hammer, N. Torkewitz, T. Young, D. Hofmann, H.-J. Kempf</i>	
Current Status of Biological Control of Weeds	269
<i>Raghavan Charudattan</i>	
Challenges to the Commercialization of Biological Control Technologies for IPM	289
<i>J. C. Meneley</i>	
Section 5 -- Pesticide Technology	305
Pesticides and IPM: Concepts and Reality	307
<i>Paul C. Jepson</i>	

Delivering New Crop Protection Agents within an IPM Environment	323
<i>Franklin R. Hall</i>	
Development in Transition: Crop Protection and More	339
<i>N. Beth Carroll</i>	
Integrating New Fungicide Technologies in IPM	355
<i>Eric Tedford and Richard A. Brown</i>	
Assessing Integrated Weed Management in Terms of Risk Management and Biological Time Constraints	373
<i>J. L. Gunsolus, T. R. Hoverstad, B. D. Potter, G. A. Johnson</i>	
Integrating New Insecticide Technologies in IPM	384
<i>J. R. Bradley, Jr.</i>	
Fulfilling the Role of Resistance Management to Preserve Effectiveness of New Insecticide Technologies	400
<i>T. J. Dennehy</i>	
Section 6 -- Geographical Information Systems and Global Positioning Systems	418
Use of GIS/GPS Systems in IPM: Progress and Reality	419
<i>M. M. Ellsbury, S. A. Clay, S. J. Fleischer, L. D. Chandler, and S. M. Schneider</i>	
Geographical Information Systems and Global Positioning Systems for Optimization of Banana Production	439
<i>D. H. Marin, J. E. Soto, and R. Valenciano</i>	
Section 7 -- Information Processing and Delivery	452
Weather Forecasting for IPM	453
<i>Joseph M. Russo</i>	
Information Management: Past, Present, and Future	474
<i>R. E. Stinner</i>	
Section 8 -- Progress and Challenges	482
Delivering IPM: Progress and Challenges	483
<i>P. B. Goodell and F. G. Zalom</i>	
Politics, Policy, and IPM	497
<i>Kathleen A. Merrigan</i>	

Summary: International Conference on Emerging Technologies for IPM <i>Barry J. Jacobsen</i>	505
List of Conference Participants	514
