Preface .....	iii
Participants .....	ix
Contributors .....	xi
Observers .....	xvii

## Overviews

1. Progress in Understanding Host-Parasite Interaction- The U.S.-Japan Seminar Series, 1966-1995 ..... 3  
*Wm. R. Bushnell*
2. Cytological Approaches in Understanding Host-Parasite Interactions ..... 15  
*Hitoshi Kunoh*

## Fungal Plant Genic Interactions

3. Genic Interactions in Hosts and Pathogens ..... 33  
*Albert H. Ellingboe*
4. Gene-for-Gene Relationships in Forma Specialis-Genus Specificity of Cereal Powdery Mildews ..... 47  
*Yukio Tosa*

## Signal Transduction in Fungal Morphogenesis

5. Cell Surface Communication in Appressorium Development by *Magnaporthe grisea*..... 59  
*R. A. Dean, B. P. Blackmon, J. C. Brooks, R. D. Gilbert, S. Liu, T. K. Mitchell, M.-T. Shieh, and H. Zhu.*
6. Molecular Genetic Analysis of Melanin Biosynthetic Genes Essential for Appressorium Function in *Colletotrichum lagenarium* ..... 73  
*Yasuyuki Kubo, Yoshitaka Takano, and Iwao Furusawa*

7. Cyclic AMP Controls Dimorphic Switching of  
*Ustilago hordei*..... 83  
*Dallice Mills, Jacqueline Agnan, and Kevin McCluskey*

### Bacterial and Fungal Sensing of Plant Signals

8. The Sensing of Plant Signal Molecules by *Agrobacterium* ..... 95  
*Eugene Nester, Yong-Woog Lee, Shouguang Jin, and  
Woong-Seop Sim*
9. Factors Involved in the Pathogenicity of *Xanthomonas*  
*campestris* pv. *citri* ..... 105  
*Shinji Tsuyumu, Yuichi Takikawa, Nobuyuki Furutani,  
Keiko Tanaka, Hiroyuki Kanamori, Yoshiko Kondoh, and  
Hirofumi Nagai*
10. Induction of Defense Responses in Rice ..... 115  
*J. E. Leach, S. A. Young, J. M. Chittoor, W. Zhu, and F.  
F. White*
11. Molecular Aspects of Pathogenic Specialization in  
*Alternaria alternata* Pathogens ..... 129  
*Takashi Tsuge, Motoaki Kusaba, Hiroshi Shiotani, Aiko  
Tanaka, Satoshi Katsuya, Makiko Owaki, and Isao  
Kaneko*
12. The Syringolide Elicitors Specified by Avirulence Gene D  
and their Specific Perception by *Rpg4* Soybean Cells ..... 139  
*N.T. Keen, T. Tsurushima, S. Midland, J. Sims, S-W Lee,  
S. Hutcheson, M. Atkinson, Y. Okinaka, N. Yamaoka, Y.  
Takeuchi, and M. Yoshikawa*

### Plant Disease Resistance Genes in Signal Transduction Pathways

13. Regulation of Genes for Phenyl-Propanoid Synthesis in  
Pea by Elicitor and Suppressor ..... 151  
*Tetsuji Yamada, Tomonori Shiraishi, Yuki Ichinose,  
Hisaharu Kato, Hikaru Seki, and Yasuhiro Murakami*

14. Signal Transduction Events Involved in Bacterial Speck Disease Resistance..... 163  
*Gregory Martin, Reid Frederick, Roger Thilmony, and Jianmin Zhou*
15. Toward Molecular Isolation of the Blast Resistance Gene in Rice by the Maize *Ac/Ds* Elements..... 177  
*Ko Shimamoto, Tohru Ohnishi, Yousuke Kume, Hisako Hashimoto, Chuanyn Wu, and Takeshi Izawa*
16. The Involvement of the Cytoskeleton in the Expression of Nonhost Resistance in Plants..... 185  
*Issei Kobayashi, Yuhko Kobayashi, Masako Yamada, and Hitoshi Kunoh*
17. Fungal Signals Regulate ATPase and Polyphosphoinositide Metabolism in Pea Plants..... 197  
*Tomonori Shiraishi, Tetsuji Yamada, Yuki Ichinose, Kazuhiro Toyoda, Akinori Kiba, and Toshiaki Kato*
18. Resistance in the Poaceae: Different Roles for Phenolic Compounds..... 209  
*Ralph L. Nicholson and John D. Hipskind*

### Signaling in Response to Bacterial and Fungal Phytotoxins

19. Expression of Specific Resistance in the Crown Rust-Oat Interaction ..... 221  
*Shigeyuki Mayama, Tomoyo Ikegawa, Adilson Kenji Kobayashi, Kaoru Zenbayashi, Hitoshi Nakayashiki, and Hajime Kato*
20. Biosynthesis and Regulation of the Phytotoxin Coronatine in *Pseudomonas syringae* ..... 233  
*C. Bender, A.M. Bailey, W. Jones, R. Mitchell, D. Palmer, R. Parry, A. Peñaloza-Vázquez, C. Penfold, P. Reynolds, J. Turner, and M. Ullrich*

21. Evaluation of the Glycine Decarboxylase Complex as the Possible Site of Action of Victorin ..... 245  
*Thomas J. Wolpert, Duroy A. Navarre, Jennifer M. Lorang, and Daniel L. Moore*
22. Physiological and Molecular Aspects of *Alternaria* Host-Specific Toxin and Plant Interactions ..... 257  
*Hiroshi Otani, Motoichiro Kodama, and Keisuke Kohmoto*

### Poster Abstracts

- Abstracts presented at the 7th Japan-U.S. Cooperative Science Seminar (Molecular Aspects of Pathogenicity and Resistance: Requirement for Signal Transduction), Tsu Miyako Hotel, Tsu-city, Japan, September 24- October 1, 1995 ..... 271
- Synopsis ..... 285  
*Seiji Ouchi and Dallice Mills*
- Index ..... 289
